The diagram illustrates a random walk on a 2D grid. The path is defined by 100 steps, each represented by a small circle containing a number from 1 to 100. The walk starts at the top-left corner and moves towards the bottom-right corner. The path is composed of several connected segments, with the direction of movement changing at each step. The grid is bounded by dashed lines on the top, bottom, and right sides, and a solid line on the left side. The path is shown in a way that suggests it is a single continuous sequence of steps.
